

## Features

- 1** **Mathematics Day Once More . . . .**  
Compiled by the Editors, At Right Angles
- 7** **The National Day of Mathematics**  
Padmapriya Shirali

## Classroom

- 10** **What We Steal When We Teach**  
Smruti Smarak Panda
- 16** **Little Childhood Mathematical Discoveries about Divisibility**  
Jeenath Rahaman
- 20** **Exploring Area and Perimeter Through Experience: A Classroom and Cluster-based Journey**  
Karan Singh
- 24** **“How Do I Know That They Got It?”**  
Kshama Chakravarthy
- 30** **Fact Families**  
Swati Sircar

## The Joy of Mathematics

- 34** **Cross-Number Puzzle**  
Swati Sircar
- 36** **Investigating Perimeter and Area with Square Tiles**  
Mohan R
- 40** **Children of Plato: A Mathematical Roleplay**  
Padmapriya Shirali

## Review

- 46** **Teaching Mathematics Through Problem-Solving: A Pedagogical Approach from Japan**  
By Akihiko Takahashi  
Reviewed by Anusha T

## Pullout

- Activities that Celebrate Mathematics**  
Padmapriya Shirali
